Hi Rick – Have not seen anything yet. my guess that if we get something it will be right before the call.

Ex. 5 - Attorney Client

Ex. 5 - Attorney Client

I'm going to try to do that in the morning.

Thanks, Mike. I received and accepted the meeting invitation. Are you expecting to receive any materials from OMB in advance, or are we just going to walk through their earlier comments and our responses thereto?

Rick

I just got the invite for that time Thursday. Let me know if you don't see it b/c of computer issues.

Yeah, sorry. I think we're waiting to get confirmation from OMB, but Thursday 2pm Eastern was going to be what we proposed to them.

I assume that since I don't see a meeting penciled in on my calendar for this afternoon, we are going to do this Thursday? (I've been having computer problems, which they just now fixed, since late yesterday.)

We're waiting to get their list of questions or issues; I'll let you know when we get something. So far we mainly have the interagency comments to go on. If we can get Rick and Tod on the call that would be great. It now looks like we're going to propose Thursday 9/22 at 2:00 Eastern, with alternatives on Tuesday 3-4 or 4:30-5:00 EDT.

Good luck with the CPP argument.

Stuck with CPP lit prep. Do we know the issue?

Rick, Tod, Elliott –

We're trying to schedule a follow-up call with OMB to talk about their questions on the U&O FIP. They asked us to propose some times this week, and specifically asked for OGC to be on the line. Of course that's what we would like too. The times below work for the region, but unfortunately it looks like there's nothing this week that works for all of us and all of you. We may have to settle for partial coverage if it's to happen this week.

Are your calendars up to date? Do you have soft obligations at any of the times below? If I don't hear from you, we'll just do the best we can to schedule a time when at least two of you can join the call, but if there's anything I should know about your schedule this week please let me know.
